

**Ground Water Supply Protection and Management Plan  
for the Eastern Shore of Virginia**

May 5, 1992

Prepared For:

Eastern Shore of Virginia  
Ground Water Study Committee  
Accomac, Virginia 23301

Prepared By:

Horsley Witten Hegemann, Inc.  
Consultants in Water Resources and Land Planning  
1680 E. Gude Drive  
Rockville, Maryland 20850  
(301) 294-9895

This document was prepared under a United States Environmental Protection Agency 205(j) Water Quality Planning Grant for the Virginia State Water Control Board, and was funded, in part, by the Virginia Council on the Environment's Coastal Resources Management Program through grant #NA90AA-H-CZ796 of the National Oceanic and Atmospheric Administration under the Coastal Zone Management Act of 1972 as amended.

EASTERN SHORE OF VIRGINIA GROUND WATER STUDY COMMITTEE

GROUND WATER SUPPLY PROTECTION AND MANAGEMENT PLAN  
FOR THE EASTERN SHORE OF VIRGINIA

RESOLUTION OF ADOPTION

BE IT RESOLVED that the Ground Water Supply Protection and Management Plan for the Eastern Shore of Virginia is hereby adopted by the Eastern Shore of Virginia Ground Water Study Committee.

\*\*\*\*\*

Duly adopted by the Eastern Shore of Virginia Ground Water Study Committee on May 5, 1992.

Certification: C. D. Fleming Jr.  
C.D. Fleming Jr. Chairman  
Eastern Shore of Virginia  
Ground Water Study Committee

State of Virginia  
County of Accomack

The foregoing instrument was acknowledged before me on this 5th day of May, 1992, by C.D. Fleming, Jr., Chairman of the Eastern Shore of Virginia Ground Water Study Committee.

Maudie Taylor  
Notary Public

My Commission expires: 7-31-95

## ACKNOWLEDGEMENTS

This report was prepared by Horsley Witten Hegemann, Inc. under contract with the Eastern Shore of Virginia Ground Water Study Committee. In researching and developing this document, it was necessary to collect information from many agencies and individuals. In particular, the following individuals provided special assistance in the production of the document: Jack Green and Jim McGowan, A-NPDC, Project Managers; Paul Berge, A-NPDC, Director; Virginia Newton, VA State Water Control Board; Robert Jackson, VA State Water Control Board; Gary Speiran, U.S. Geological Survey; Donna Richardson, U.S. Geological Survey; Rodney Lewis, Soil Conservation Service. Many other local, state and federal officials contributed information or conducted reviews of drafts, and their efforts are greatly appreciated. HWH also wishes to recognize our two subcontractors Dr. Lewis Waters who conducted the land use analysis and Dr. Daniel Morrissey who assisted in the hydrogeologic investigation.

# Ground Water Supply Protection and Management Plan for the Eastern Shore of Virginia

## TABLE OF CONTENTS

		PAGE:
1.	INTRODUCTION	
	Overview	1-1
	Executive Summary	1-3
	Purpose of Project	1-6
2.	WATER RESOURCES ON THE EASTERN SHORE OF VIRGINIA	
	Topography and Soils	2-1
	Surface Water	2-2
	Hydrologic Units	2-4
	Farm Ponds	2-6
	Tidal Wetlands	2-6
	Ground Water	2-6
	Introduction	2-6
	Hydrogeology of the Eastern Shore Aquifers	2-10
	Summary of Existing Technical Reports	2-10
	Flow and Recharge Patterns on the Eastern Shore	2-11
	Water Use	2-14
	Crop Irrigation	2-14
	Public and Industrial Water Use	2-18
	Private Water Use	2-23
	Poultry	2-23
3.	CONTAMINATION THREATS	
	Waste water disposal	3-2
	Public Sewage Systems	3-2
	On-site Septic Systems	3-2
	VPDES Permits and Mass Drainfields	3-4
	Agriculture	3-4
	Fertilizers	3-5
	Pesticides	3-10
	Animal Waste and Animal Carcasses	3-12
	Industrial/Commercial Land Uses	3-12
	Underground Storage Tanks	3-12
	Toxic Chemicals	3-13
	Solid Waste Disposal	3-15
	Septage Disposal	3-18
4.	EXISTING LAND USE	
	Purpose	4-1
	Overall Status of Land Use Controls	4-1
	Existing Patterns of Land Use	4-2

Land Use and Open Space Requirements for Water and Sewer	4-3
Existing Land Use in Accomack County	4-4
Agriculture and Agricultural Districts	4-4
Housing and Residential Districts	4-4
Industry, Business, and Industrial/Commercial Districts	4-7
Existing Zoning and Land Use in Northampton County	4-7
Agriculture and Agricultural Districts	4-7
Housing and Residential Districts	4-8
Industry, Business, and Industrial/Commercial Districts	4-8
Other Uses	4-9
Land Use Controls and Effects on Ground Water	4-10
Subdivision of Land	4-12
Subdivisions in Accomack County	4-13
Subdivisions in Northampton County	4-14
The Chesapeake Bay Program on the Eastern Shore of Virginia	4-14
Introduction	4-14
Basic Approach	4-14
Implications for Ground Water Protection	4-15
Summary of Land Use on the Eastern Shore	4-17
5. DELINEATION OF GROUND WATER SUPPLY MANAGEMENT AREAS	
Introduction	5-1
Selection of Aquifer Protection Criteria	5-1
Zone 1	5-1
Zone 2	5-2
Zone 3	5-3
Physical Description of Each Wellhead Protection Area	5-6
Wellhead Protection Area A - Chincoteague Area	5-6
Wellhead Protection Area B - Holly Farms (Tyson Foods) Area	5-6
Wellhead Protection Area C - Perdue Area	5-7
Wellhead Protection Area D - Exmore Area	5-7
Wellhead Protection Area E - Cape Charles Area	5-8
6. WATER BUDGET/ BALANCE	
Recharge to the Columbia Aquifer	6-1
Recharge to the Yorktown-Eastover Aquifer	6-1
Salt Water Intrusion	6-3
7. BUILDOUT/DEVELOPABLE LOT ANALYSIS	
Developable Lot/Land Use Analysis	7-1
Methods	7-1
Buildout Assumptions	7-2
Buildout Analysis Results	7-4
Buildout Analysis Summary	7-4

8.	NITROGEN LOADING	
	Introduction	8-1
	Nitrogen as a Contaminant	8-1
	Sources of Nitrogen	8-3
	Sewage	8-3
	Fertilizers	8-4
	Animal Waste	8-4
	Lawn Fertilizers	8-5
	Landfills	8-6
	Septage Lagoons	8-6
	Pavement and Roof Runoff	8-6
	Estimation of Paved Area/Roof Area	8-7
	Business/Industrial/Institutional	8-7
	Precipitation	8-7
	Nitrogen Loading Analysis	8-7
	Nitrogen Modelling Results	8-8
	Existing Water Quality Results	8-11
	Virginia Department of Health, Public Water	8-11
	System Inventory	
	State Water Control Board/EPA STORET Database	8-11
	Virginia Department of Health, Eastern Shore District	8-13
	USGS Water Quality Sampling	8-13
	Nitrogen Loading Analysis Under Future Buildout Conditions	8-15
9.	CASE STUDIES AND THEIR APPLICABILITY TO THE EASTERN SHORE OF VIRGINIA	
	Agricultural Practices	9-1
	Lancaster County, Pennsylvania: Fertilizer Effects on Water Quality	9-1
	Jefferson County, Wisconsin: Controlling Disposal of Livestock Wastes	9-3
	Delmarva Peninsula: Composting Dead Chickens	9-4
	On-site Waste Disposal	9-6
	Ontario, Canada: Nitrogen Plumes from Septic Systems	9-6
	Falmouth, Massachusetts: Performance Standards Within Zones of Contribution	9-7
	Long Island, New York: Restrictions Within Recharge Zones	9-8
	Gloucester, Massachusetts: Siting of Septic Systems	9-19
	Locations Throughout The U.S. Constructed Wetlands, Alternative to Conventional Wastewater Treatment	9-10
	Surface Water Management	9-11
	Chesapeake Bay Area, Maryland: Stormwater Pollutant Reduction	9-11
	Buzzards Bay, Massachusetts: Stormwater Treatment System	9-13
	Chesapeake Bay Area, Maryland: Vegetated Buffer Zones	9-14
	Hazardous Materials Handling and Storage	9-15
	Portland, Oregon: Land Use Controls Within Wellhead Protection Area	9-15
	Dayton, Ohio: Overlay District For Aquifer Recharge Area	9-16

	Palm Beach County, Florida: Ground Water Protection Through Zoning Ordinance	9-17
	Comprehensive Monitoring Programs	9-18
	State of Rhode Island: Salt-pond Watchers, Watershed Watch	9-18
10.	CONCLUSIONS OF THE REPORT	
11.	RECOMMENDATIONS	
	Recommendations for Water Quality and Quantity Protection	11-1
	Recommendations for Water Quantity Management	11-3
	General Recommendations	11-5
	Continued Research and Investigation	11-5
	APPENDIX A - WATER QUALITY	A-1
	APPENDIX B - POPULATION	B-1
	APPENDIX C - LAWS AND REGULATIONS APPLICABLE TO STUDY	C-1
	APPENDIX D - EASTERN SHORE OF VIRGINIA GROUND WATER STUDY COMMITTEE	D-1
	APPENDIX E - HYDROGEOLOGIC CALCULATIONS	E-1
	APPENDIX F - BUILDOUT NITROGEN LOADING CALCULATIONS	F-1
	APPENDIX G - REFERENCES AND RESOURCES	G-1
