Summary table and PDF of powerpoint presentation are available at http://www.a-npdc.org/accomacknorthampton-planning-district-commission/ground-water-management/publications-resources/

   **VDEQ Update** – Joseph Grist provided an update indicating the December 13th SWCB meeting
agenda will have the poultry facilities permit approval included, that the 2019 Groundwater Forum will be Friday November 15th and that there is a 20-minute spot reserved for the Eastern Shore, that the NOIRA for SB1599 for the General Permit use of the Surficial Aquifer on the Eastern Shore may have a meeting prior to the 2020 General Assembly and reconvene following GA conclusion, and that the Governor issued a statewide drought watch and the potential impacts to crops in particular.

**Committee Member Salm moved to send a representative to present during the November 15th Groundwater Forum. The motion, seconded by Committee Member Belote, carried unanimously.**

**Septic Projects Update**
Staff presented that there have been very few applicants and requested Committee Members help to spread the word about these important programs.

MEMORANDUM

TO: Eastern Shore of Virginia Ground Water Committee
FROM: Britt McMillan
Principal Hydrogeologist
Arcadis
DATE: November 19, 2019
SUBJECT: November 2019 Ground Water Consultant Report

Technical/Regulatory/Educational Items

1. **Poultry Farm Draft Permits**: State Water Control Board meeting deferred due to Hurricane Dorian. Will be on the agenda for the December 13, 2019 meeting.

2. **2019 Annual Groundwater Stakeholder Forum**: For the past three years DEQ has hosted an Annual Groundwater Stakeholder Forum. The forum provides information related to the groundwater resources with a focus on the Eastern Virginia and Easter Shore of Virginia Groundwater Management Areas. On behalf of the Groundwater Committee, Mr. McMillan presented on the activities related to maintaining sustainable supplies on the Shore with a focus on promoting use of the Surficial aquifer. Forum presentations on the Eastern Shore of Virginia Groundwater are:
   a. *New Private wells registered and permits issued (DEQ Staff)*
   b. *2018-2019 Annual Groundwater Withdrawal Simulation (Griffiths, Aquaveo)*
   c. *DEQ-USGS Eastern Shore Framework (McFarland, USGS)*
   d. *Eastern Shore Poultry Facility Update and Next Steps (Grist, DEQ)*
   e. *Eastern Shore Surficial Aquifer Use (ESVA Groundwater Committee)*
   f. *Eastern Shore DEQ Technical Activities (Kudlas, DEQ):*
      i. *Eastern Shore Regulatory Advisory Panel*
      ii. *Monitoring Network Review*
      iii. *Model Updates*

Findings from these presentations will be summarized for the Committee with any presentation materials available from the meeting.

3. Discuss potential Eastern Shore research that can augment work already being conducted by DEQ and USGS and to address data gaps identified by DEQ, USGS, and the Groundwater Committee. Included are conceptual level costs for each study component. A table outlining some of these potential research programs and conceptual costs are included. Structure of these programs, implementation considerations, and options to vary the program based on cost or information objectives will be presented. Note that the scope and methods for some activities will likely need to be adjusted after the USGS presents their findings for the Eastern Shore Groundwater Framework. Principal areas of research considered are:
a. Sustainable use of the Columbia aquifer:
   i. Variability in yield
   ii. Variability in water quality including natural and land use influences
   iii. Recharge and drought resistance
b. Hydraulic function of the Paleochannels:
   i. Variability in yield
   ii. Interconnection between Columbia and Yorktown-Eastover aquifers
c. Recharge through the Yorktown Confining units
d. Saltwater intrusion
e. Quality and yield of deeper aquifers

Other Items:

a. Additional FY2019 Groundwater Committee activities.
